

K-LOVE radio is a positive, up-lifting, and encouraging piece of our community. Replacing this radio choice with any other type of broadcast would be similar to a town closing it's last safe park. Families need positive and "safe" radio programming as much as they need safe neighborhoods. It is definitely in the public's best interest to have this commercial free, "clean" choice among the many opinionated, commercial-ridden, and often objectionable radio stations currently on the airwaves.
